

POWERFUL ROOM FILLING SOUND
FOR MUSIC AND MOVIES

USES YOUR EXISTING TV REMOTE
AND HAS AUTO POWER ON/OFF

QUICK AND EASY TO INSTALL

BLUETOOTH STREAMING WITH NFC

TVB2 SOUNDBAR WITH WIRELESS SUBWOOFER

WE ASKED OUR ENGINEERS TO PRODUCE A COMPACT, PREMIUM SOUNDBAR THAT WOULD BE ONE OF THE MOST DISCREET AVAILABLE, BUT WITHOUT GIVING ANYTHING AWAY TO THE COMPETITION IN TERMS OF SOUND QUALITY AND POWER. THE RESULT IS THE TVB2.

Awesome sound

TVB2 has been engineered for deep punchy bass from its wireless subwoofer, and our 4th generation BMRs deliver a detailed midrange and crisp treble. The BMR's ensure that wherever you are in the room, you still get the same great audio experience.

BMR® drivers

Patented BMR® (Balanced Mode Radiator) speaker drivers deliver a wider, more room-filling sound than similarly-sized traditional speakers, perfect for our best speakers, but also ideal for a music and movies TV system.

Connectivity

When we designed this soundbar, we also wanted you to be able to connect your Blu-Ray player, satellite box and games consoles via HDMI. We've included three inputs, all with 4k pass-through, for incredible images to match TVB2's sound quality.

TVB2

IR remote learning and auto on/off

TVB2 learns from your existing TV remote, reacting to your TVs remote volume commands, so once installed you can completely forget about having to control the TVB2. Auto power on and off kicks in when TVB2 isn't needed and when you're ready to go, the system reboots almost instantly.

Plug and play

Included in the box are all the cables needed including HDMI, Optical and an AUX cable. Also in the box is a super easy wall bracket that allows the owner to discreetly wall-mount the soundbar above or below their TV.

Selectable EQ modes

As well as being able to adjust the subwoofer level, there are four adjustable EQ modes - all selectable from the remote.

- TV enhances the sounds found in your favourite TV shows
- Music mode enhances stereo music and music videos for amazing playback
- Film will enhance dialogue, sound and special effects, for incredible cinematic sound
- Voice means important dialogue is delivered in perfect clarity

Bluetooth and NFC connectivity

Bluetooth with NFC tap-to-pair technology allows you to easily stream from mobiles, tablets, and laptops via Bluetooth, all delivered in amazing sound quality.

Additional inputs for connecting any TV

Our engineers have also included ARC technology on the HDMI output, meaning TV audio can be sent back through the TVB2 as well, providing ultimate flexibility with just one connection. If your TV doesn't support ARC HDMI, TVB2 also has an optical digital input and an AUX-in analogue input, so literally any TV or source can be connected.

TVB2

Drive units:	2 x 57mm (2.25") Balanced Mode Radiator (BMR®) drivers, 1 x 165mm (6.5") woofer
Input voltage:	100V – 240V (50/60Hz)
Standby power consumption:	4W
Connectivity:	3 x HDMI 1.4c inputs, 1 x HDMI 1.4c output with ARC, TOSLINK Optical, 3.5mm
Dimensions (W x H x D):	Soundbar: 880 x 74.5 x 46mm (34.6 x 2.9 x 1.8") Subwoofer: 180 x 364 x 278mm (7.1 x 14.3 x 10.9")
Weight:	Soundbar: 1.63kg (3.6lbs) Subwoofer: 4.9kg (10.8lbs)
